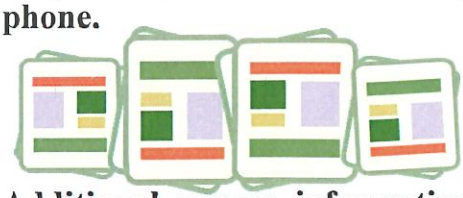
What You Need to Know About the 2020 CENSUS

Everyone Counts!

It is about fair representation. It is about the distribution of $675 billion in federal funds, grants and support to states, counties and communities, which are based on census data.

Your privacy is protected. It is against the law for the Census Bureau to publicly release your responses in any way that could identify you or your household. Your responses cannot be used against you and can only be used to produce statistics.

The 2020 Census will be easier than ever. When it is time to respond, most households will receive an invitation in the mail. You will have the option of responding online, by mail or by phone.



Additional census information is available in the management office.
